

**ATTN: Field Office Manager, Stockton or Manteca**

My name is ROBERT KIRALY. My Social Security Number is **Redacted**.

I've been trying to get my SSA retirement payments set up correctly since December 2024. In the course of 12 months, I've filed numerous documents including Form 561 **[Corrected. This said 861 in the filing.]** A dozen agents have told me that what I've told SSA is accurate and reasonable.

The primary outcome is that I've received an illegal threat from one worker at Mountain View and a potential threat from the manager of that office, Ying-yu Hobbs.

My understanding as of late October 2025 was that the matter had been settled at last. Feel free to review related printed letter[s] that were sent to me at that time. I filed a thank-you letter that you may or may not have seen [it went into the box at Stockton or Manteca]. However, an agent in Antioch has stated to me by phone today that the matter isn't settled.

The issue is related to overpayments. I filed a Form 561 **[Corrected. This said 861 in the filing.]** months ago which clearly explained that (a) one overpayment or set of overpayments had never existed at all and (b) that I was being double-billed for another overpayment or set of overpayments.

I was supposed to be granted a phone call as part of the Form 561 **[Corrected. This said 861 in the filing.]** process. No phone call was offered to me. I thought that Western Region Service Center had agreed to close the overpayment issue without a call.

But the Antioch agent has stated today that I need to file a request for a waiver shortly or deductions will be made. It sounds as though I'm being asked to file Form 561 **[Corrected. This said 861 in the filing.]** again. Better still, it sounds as though the putative overpayment balance may now, once again, include overpayments in 2024 that never existed in any way, shape, or form. Just look at the records.

I'm requesting, please, that **my original Form 561 [Corrected. This said 861 in the filing.] be reviewed by Western Region Service Center** and that **I be granted the phone call that [Corrected. This said 861 in the filing.] was supposed to request.**

The Antioch agent has scheduled a phone call with an unidentified person in the Gilroy office. The call is scheduled for 11:20am on Monday, January 12, 2026. I'm requesting as well, please, that this letter **be CC'd to the Field Office Manager in Gilroy** and that the **person who is going to call me review the Form 561 [Corrected. This said 861 in the filing.] that I've already filed** and the other filings that I've already submitted over the course of the last 12 months.

**ATTN: Field Office Manager, Gilroy**

Please review the preceding. Ask the person who is scheduled to call me to review the Form 561 **[Corrected. This said 861 in the filing.]** that I've already filed and the other files that I've already submitted over the last 12 months.

To all parties, in all seriousness, this shouldn't have taken a year. It isn't requesting special treatment to say that somebody who's proceeded politely and in good faith – and who has clearly documented details – shouldn't need to run a gauntlet for so long.

Regards, Robert (the Old Coder)
